Studies suggest that music and movement

- *Nourish the brain while affecting all areas of development*
- *Help develop critical listening skills*
- *Strengthen motor skills, problem solving, and spatial-temporal performance*
- *Create space for emotional well-being, while calming and focusing the mind*
- *Provide opportunities to practice social skills, instill acts of kindness and cooperation and encourage interaction in non-threatening ways*

Music Discovery for Preschool Children

"My son and I have gone to other music classes together, but this is the first class that has him singing the songs at home. I wish I'd found it sooner!"
-Rhonda, Peabody, MA

Ages Infant - 4 years

CHILDREN'S MONTESSORI SCHOOL

Music Discovery for Young Children

Enhance your child's development and love of music through a variety of musical activities, including song, dance, movement games and instruments. With a range of styles, our music classes help children explore the power of rhythm, melody, tonality and beat while nurturing key physical, social and intellectual skills. The program is fun for both kids and their parents. Parents/caregivers actively participate in class activities.

Classes will be held at Stoneridge Children's Montessori School, a Toddler to Grade 8 Montessori School adjacent to Endicott College. For more information about Stoneridge, please visit: www.stoneridgecms.org.

Hannah Lynn Mell grew up performing in choirs and community theatre productions in Kona, Hawaii. She fell in love with teaching as a 17-year-old, when she began directing a church performing arts group.

Prior to joining the Stoneridge community, Hannah spent four years teaching in public schools. Since becoming the Director of our Music Program in 2008, she has breathed a new level of enthusiasm into the music program. In her free time, Hannah acts and sings, practices yoga, and works on her forthcoming book, *The Stretch Project*.
